Benchline Land Surveying

2300 Sample Plaza Drive, Suite 210, Santa Ana, CA 92705
(714) 555-0136, survey@benchline-survey.example

Capability statement

Benchline Land Surveying provides boundary, topographic and construction surveys for public agencies, engineering firms and contractors. Every survey is signed by a California Professional Land Surveyor, and field crews run current GNSS, robotic total station and drone equipment.

Core competencies

- Boundary and ALTA/NSPS land title surveys
- Topographic and design surveys
- Construction staking and as-built surveys
- Right-of-way mapping and legal descriptions
- Records of survey and corner records
- Aerial (drone) mapping and control

What sets us apart

- Licensed surveyor in the field on boundary work, not only at the desk.
- Staking requests turned around in 48 hours on active construction jobs.
- Deliverables in the format your engineer uses: Civil 3D, MicroStation or PDF.
- Certified DBE and WBE for state and federal participation goals.
